Resolution 1112-WI-003

Supporting M.D. Camp 2012

Author: Allyn Checovich, Delegate of the College of Medicine

Introduced: February 5, 2012

WHEREAS M.D. Camp is a 3 week, summer program for underrepresented minority and disadvantaged Columbus high school students. Students at MD camp come from low-income backgrounds, and as a result, are unable to afford the costs needed to cover the food, transportation, and other expenses incurred throughout the program.

WHEREAS the program represents interprofessionalism through exposure to all of the different professional programs represented by IPC, because the primary goal is showing students that there are options in other professions and encouraging them to pursue higher education, medicine or otherwise.

WHEREAS The goal of our fund-raising is to ensure that the student’s participation is not limited based on their economic backgrounds, considering the impact these young adults will have on our local communities and on our nation’s quality of health; and various other Columbus organizations and companies support M.D. Camp.

THEREFORE LET IT BE RESOLVED that the Inter-Professional Council support M.D. Camp with $1400.

Approved by the senate February 5, 2012

Megan ConRoy

President, Inter-Professional Council
