 - Plan to notify the new senators know by the Senator Social on 9/13 (before this weekend)
 - 34 Y, 1 A = Motion passes
- PDF Reform: Update
 - Minimum award for \$100 (if granted an award)
 - One application per cycle

 - Add in honor code statement
 - Rubric
 - Current rubric offers 0 points to students attending conferences
 - Change points allotted depending on the involvement in the conference
 - Level of conference attendance
- Funding rubric: recommend creating an Allocations Committee composed of alternate senators – Vote
 - 30 Y, 3 N, 1 A = Motion passes
- Intellectual Property Law Society Funding Request: recommend approval – Vote
 - Money spending on food
 - 29 Y, 2 N, 4 A = Motion passes
- Concerns/Ideas Expressed:
 - Optometry alternates with each vote - we will do this with the new senators that are added
 - Concern about grading the application retrospectively → prospectively (would the algorithm hold/is it valid)
 - Idea to change the application limit to one time per year instead of one per each voting cycle
 - How much \$\$ is rolled over to the next year (report that out next meeting)
 - Concern about allocating the money between cycles differently
 - Threshold model vs. Percentage model → likely going to have a hybrid of both
